The Future of Real Time Passenger Information is Here

The leading provider of solar-powered ePaper signage across the U.S.
Versatile signage for all your passenger information needs
Our Connectpoint® displays can be installed in less than an hour—without electrical infrastructure. An eco-friendly solution for today’s smart city environment (IP 66 environmental rating).

Smart. Sleek. Transit Tested.
Our compact and portable displays feature sleek design and superior functionality for smart cities everywhere.

10”, 13”, 32”, and 42” displays provide multiple options to display passenger information, alerts and advertisements at bus stops, BRT, transit centers, and rail stations. Install on poles, at shelters, or in stand-alone totems.

The #1 choice to replace paper and energy inefficient signage
Connectpoint is the industry leader and has deployed ePaper solutions for 24 transit agencies across 14 states.

Maximize your passengers’ experience on every journey, 24/7

Energy efficient
Exceptionally low energy consumption—that provides 30-day autonomous operation regardless of weather conditions—and wireless connectivity (cellular, WiFi, ethernet), provide always-on customer arrival information, alerts and maps at every stop across the network.

Complete clarity
Our Connectpoint® displays are engineered for impressive visibility during sunny days. And at nighttime, our industry leading LED lighting provides complete clarity.

Updated remotely
Accurate real-time information is delivered seamlessly to passengers across all your digital signage with our easy-to-use and powerful Connectpoint® Asset Management system.

"This is the kind of game-changing infrastructure that will make our system easier to use and provide riders with information at their fingertips.”
Scott Vetere Director of Service Planning - Port Authority of Allegheny County
SmartStop®

The most powerful interactive kiosk in the industry

Perfect for train stations and transit centers, this interactive and engaging interface attracts customers by the tens-of-thousands. Our crystal-clear 55” touch screen provides easy-to-read information and customized route planning. Additional top screen provides unique advertising opportunities and revenue.

Features for a Smarter Commute

- **Next arrival**
  - Use a data feed of your choice to display real-time or scheduled arrival information.

- **Routes**
  - Show every route and stop across your system, all service from your location, and estimated arrival times, with detailed local mapping for each stop.

- **Trip planning**
  - Trip planning Citywide turn-by-turn directions for driving, biking and walking. Texting and email options included.

- **Custom modules**
  - Notify riders in advance of upcoming service changes, delays or any other information. Generate revenue via location-based advertising.

LCD and LED

Reliable and sustainable indoor and outdoor signage with vibrant color and optimal visibility.

Our LED and LCD signs are designed for optimal versatility, ease of use and low cost of operation. Highly efficient LEDs and LCDs optimize power settings and conserve electricity without sacrificing quality. Our displays connect wirelessly via 4G, existing WiFi network, or ethernet.

Customize display size and shape for any deployment, and expand your network as your needs grow. Robust environmental and quality tests ensure maximum reliability.

Real time information

Display real-time data such as GTFS realtime or any API/feed format. Automatically displays real-time alerts or choose to show scheduled times.

Instant alerts

Notify riders with real-time alerts including service changes, delays or public service announcements.

Advertising

Allocate screen space and schedule four-color revenue generating advertising campaigns through CPAM.
**Connectpoint® Asset Management**

We provide the only "out of the box" cloud-based content management system that seamlessly integrates with e-Paper, LCD, LED, and legacy systems, and is specifically designed for the complexities of public transportation. Guaranteed to boost passenger satisfaction.

**Asset management**
Boost passenger satisfaction with instant and accurate real-time content. Manage arrivals, service interruptions, vehicle capacity, maps, alerts, custom messages and advertising. Push content to multiple displays at once from your desktop or mobile device.

**Analytics**
Advance analytics significantly improve the accuracy of bus arrival predictions. Monitor hardware health. Gain insight into customer interactions with your content. Track advertising posts and special alerts.

**Systems integration**
Flexible integration with cloud services and legacy systems. Manage all your digital displays, including ePaper, LCD and LED signage through a single interface.

**Designed to fit any transportation network**
