

Connectpoint® 13"

13" ePaper Digital Bus Stop Display®

The CP-13 provides plug and play digital signage for AC or solar-powered locations and can easily be mounted to a shelter or freestanding pole. The CP-13 is designed for extreme weather and outdoor use and offers a high-resolution ePaper screen with crisp daytime and nighttime visibility.

The CP-13 offers a variety of dynamic messaging options, including real-time or scheduled next departure information, real-time alerts and advertising imagery.

The system's power and content are remotely managed by the Connectpoint Asset Management System (CPAM™) from the convenience of a desktop or mobile device.

CP 13 Specifications

Screen Size	13.3 inches
Dimensions	14.5" H x 10" W x 1.8" D
Weight	7.3 lbs.
Resolution	1600 x 1200
